

July 30, 1998

Brownie Engineering  
2876 Timberlane Ct  
Jensen Beach FL 34957

Mr. Kim Brownie,

I would like to extend my deepest appreciation to Brownie Engineering for the extraordinary service that was provided to Florida Power and Light during our recent emergency transformer move over the July 4, 1998 week-end.

This move was absolutely imperative to ensure uninterrupted service reliability to thousands of customers in the St. Lucie and Martin County area.

The professional approach demonstrated by your company was a major factor in bringing the very arduous task to a safe and successful conclusion.

Sincerely,

A handwritten signature in cursive script that reads "Ralph E. Davis".
